LUKOIL REPORTS PRELIMINARY OPERATING DATA FOR THE FIRST
QUARTER OF 2018

The LUKOIL Group's average daily hydrocarbon production excluding West Qurna-2 project in the first quarter of 2018 was 2,286 thousand boe per day, which was 3.3% higher year-on-year and flat quarter-on-quarter. The growth was driven by the development of gas projects.

Hydrocarbon production, thousand boe per day

1Q 2018	4Q 2017		1Q 2018	1Q 2017
2,286	2,286	Total (excluding West-Qurna 2 project)	2,286	2,213

Starting January 2017 LUKOIL Group's oil production volumes and dynamics are mainly defined by the external limitations of Russian companies' production volumes. In the first quarter of 2018 oil production excluding West Qurna-2 project was 20.9 million tonnes with average daily production remaining at the level of the fourth quarter of 2017.

21,377	21,873	Total	21,377	21,802

Active development of the priority projects continued. In particular, oil production at V. Filanovsky field was 1.4 million tonnes in the first quarter of 2018, one and a half times above the production for the first quarter of 2017. Two wells were completed within the second stage of the field development. Further drilling will allow to reach the sustainable production plateau of 6 million tonnes of oil per year. The Company progressed with the Yu. Korchagin field's second development stage that allowed to commence drilling of the first well in May 2018. Development of the Yaregskoe field and Permian reservoir of the Usinskoe field in Timan-Pechora allowed to increase high viscosity oil production by 45% year-on-year. Oil and gas condensate production at the Pyakyakhinskoe field in West Siberia increased by 12% year-on-year.

The share of the abovementioned projects in the LUKOIL Group's oil production excluding the West Qurna-2 project was 14% in the first quarter of 2018, which was 4 percentage points higher year-on-year.

Gas production, million cubic meters

In the first quarter of 2018 LUKOIL Group's gas production was 8.0 billion cubic meters, which was 24% higher year-on-year and flat quarter-on-quarter in average daily terms.

The main driver of gas production growth was the successful development of projects in Uzbekistan. In the first quarter of 2018 gas production at Kandym and Gissar projects doubled year-on-year to 2.9 billion cubic meters due to the launch of new gas treatment facilities.

Refinery throughput at refineries, thousand tonnes

1Q 2018	4Q 2017		1Q 2018	1Q 2017
----------------	----------------	--	----------------	----------------

16,113	17,294	Total for LUKOIL Group refineries	16,113	16,196
10,655	11,144	Russia	10,655	10,506

909	481	Refined products processing	909	571
1,660	1,803	Third party refineries abroad	1,660	1,396

Refinery throughput at the LUKOIL Group's refineries in the first quarter of 2018 amounted to 16.1 million tonnes. Refinery throughput in Russia increased by 1.4% year-on-year to 10.7 million tonnes mainly due to the increased throughput at Volgograd refinery. The year-on-year dynamics of the refinery throughput in Europe was driven by the maintenance works at refineries in Bulgaria and Italy in the first quarter of 2018. A quarter-on-quarter reduction of the refinery throughput was mainly driven by the maintenance works at refineries.
