The Board of Directors acknowledged that the Strategic Company's Concept, set up in April 1997, could not be properly sustained due to extremely unfavorable conditions - the result of the international oil prices slump, as well as, financial and economic crisis in Russia.

The Company is expected to focus on nine major investment projects, the initial phases of which are being fulfilled. An urgent preparation, as well as, implementation of the active marketing program including distribution network reorganization domestically and abroad is also a part of the Concept.
