LUKOIL OPENS MAINTENANCE CENTRE FOR ELECTRIC SUBMERSIBLE PUMPS IN TATARSTAN

PJSC “LUKOIL” opens an OOO “LUKOIL EPU Service” workshop for repairs and testing of electric submersible centrifugal pumps (ESP), its first maintenance and overhaul centre for submersible oil production equipment in Nurlat, Republic of Tatarstan. The capacity of the facility allows handling of more than a thousand units annually.

The workshop has all the modern equipment, required to repair all ESP elements and troubleshoot possible failures.

Nurlat was chosen for location of the facility for logistical reasons: equipment and parts, necessary for repairs, will be delivered from several regions across Russia.
