LUKOIL SUPPORTS BRICS ROAD RALLY AS ITS GENERAL PARTNER

From August 9 to 15, the highways operated by the State Company Avtodor hosted the first international BRICS Road Rally. Participants form over 20 countries drove from Ekaterinburg to Moscow. LUKOIL became the general partner of this great event.

LUKOIL's fuel stations corridor on the M-12 highway includes 18 filling stations, one of which is a flagship station and provides a wider range of services. Rally participants made stops at 6 LUKOIL filling stations to fill up their tanks, have a rest and check the condition of their vehicles. They also met with the drivers of LUKOIL Racing Team at the flagship station located on the final leg of the journey (from Vladimir to Moscow).

The vehicles that participated in the Rally were using high-quality LUKOIL GENESIS motor oils – fully synthetic products for modern gasoline and diesel passenger cars that require the use of high-grade oils. A special feature of LUKOIL GENESIS oils is the increased supply of detergent and neutralizing properties, which contributes to a high level of engine protection, even in conditions of an extended replacement interval.

The 1,600-km route passed through 6 Russian regions whose total population amounts to around 54 million people. 50 cars drove from Ekaterinburg to Moscow with stops in the cities of Dyurtyuli, Kazan, Nizhny Novgorod, and Suzdal. Their final destination was the Oil Pavilion at the Moscow's VDNH.

The participants of the Rally noted the high quality and level of road infrastructure of one of the longest highways in Russia.

Information about company:
LUKOIL is one of the largest oil & gas vertical integrated companies in the world accounting for over 2% of crude production and circa 1% of proved hydrocarbon reserves globally. LUKOIL enjoys a full production cycle to control the entire value chain from upstream to downstream. LUKOIL employs over 100 thousand people who join their efforts and talents to secure the Company's market leadership.
