

PRESS RELEASE  
MARCH 02, 2017LUKOIL REPORTS PRELIMINARY OPERATING DATA FOR THE FOURTH  
QUARTER AND TWELVE MONTHS OF 2016

The LUKOIL Group oil production for the fourth quarter and twelve months of 2016 was 22.7 and 92.0 million tonnes, respectively. Production for the fourth quarter excluding compensation crude oil from West Qurna-2 project in Iraq increased by 2.5% compared to the third quarter of 2016.

Oil production dynamics in Russia was positively impacted by launches of

V. Filanovsky and Pyakyakhinskoe fields in the second half of 2016, an increase in production drilling volumes in West Siberia, as well as growth in production volumes in Timan-Pechora and Ural regions.

Oil production dynamics outside of Russia was influenced by the divestment of our share in Caspian Investment Resources Ltd. in Kazakhstan in 2015, as well as a decrease in compensation crude oil volume from the West Qurna-2 project.

**Oil production, thousand tonnes**

The LUKOIL Group marketable gas production for the fourth quarter of 2016 increased to 5.1 billion cubic meters, or by 8.3% compared to the third quarter 2016. Gas production for the twelve months of 2016 remained practically unchanged year-on-year at 20.3 billion cubic meters. Production volume was positively influenced by development of projects in Kazakhstan, Azerbaijan and Uzbekistan.

Refinery throughput at the LUKOIL Group refineries for the fourth quarter and twelve months of 2016 was 16.7 and 66.1 million tonnes, respectively. The year-on-year positive dynamics was mainly attributable to the increase in utilization rate at our refineries in Italy and Romania, while the volume of refinery throughput at our Russian refineries remained at 2015 level. The quarter-on-quarter dynamics was driven by planned maintenance works at our Volgograd refinery.

### Refinery throughput at refineries, thousand tonnes

4Q 2016	3Q 2016		2016	2015
16,722	17,119	<b>Total for LUKOIL Group refineries</b>	<b>66,061</b>	<b>64,489</b>
